ASK EPA!!

Questions and Answers about Asbestos and EPA's Investigation

Q: When will the documents describing EPA's cleanup procedures be available?

A: The document that describes EPA's cleanup procedures, the Response Action Work Plan, is now available at the EPA Information Center at 501 Mineral Ave. in Libby. The public is welcome to review this and two other new documents and provide comments to EPA by January 16, 2004.

Two other recently completed documents are:

- The Design Analysis Report – the document which contains the supporting rationale, decisions, and details about the Response Action Work Plan.
- The Pre-Design Inspection Work Plan – the document which describes what information EPA collects and how they collect it from homes that have been determined to need cleanup. The information is used to plan the cleanup.

You may submit comments in the following ways:

- send comments to Jim Christiansen at the EPA Information Center
- send comments to the Libby Area Technical Assistance Group (TAG) Administrator at P.O. Box 53, Libby, MT 59923. The TAG will consolidate comments and submit them to EPA.
- e-mail comments to Christiansen.Jim@epa.gov
